

Bee- Minerals Plus D3

LIQUID NUTRITIONAL SUPPLEMENT

Minerals & Vitamin D3

Composition / 1 liter

Vitamin D3	200.000 UI
Magnesium sulphate	18.000 mg
Copper sulphate	10.000 mg
Manganese sulphate	10.000 mg
Zinc sulphate	12.000 mg
Sulfuric iron	1.000 mg
Cobalt sulphate	1.000 mg
Potassium iodide	1.000 mg
Sulphide Sodium	50 mg
Distillate water up to	1.000 ml

Indications :

Bee- Mineral Plus D3 is a water-soluble nutritional supplement of minerals with Vitamin D3 added for all bee feeds (sugar-water, syrup, sugar dough, vanilla) especially in pollen pies. High bioavailability of minerals results in direct absorption from the middle intestine of the bees and also in direct assimilation (through hypopharyngeal gland), where they are converted into the ingredients of royal jelly.

Bee- Mineral Plus D3 enhances the nutrition of bees' nutrients and contributes as below:

1. To the reduction of the bees' aggressiveness.
2. To the increase of hives' building.
3. To the increase the production of royal jelly.
4. To the increase the correct development of the offspring.
5. To the increase the fertility of queen –bee.
6. To a successful queen bee's nutrition.
7. To the enhancement of bees' external armor.
8. To the enhancement of the immune system of the bees
9. By stimulating productivity of bee hive.
10. By avoiding apparent despoliation of the hive.

It is suitable for all stages and seasons, when bee is in lack of nutritional elements received by natural nutrition. It resists in high boil temperatures of the bee feeds. It does not leave any residue in the produced honey.

Instructions for use :

Instructions for use: ½-5 ml per kg of complementary composer bee feed (sugar-water, syrup, sugar dough, vanilla, pollen pie), depending on the increased needs of the bee hive.

Net Weight:

1 liter
