

# Bee Vit

# Amino Extra

**LIQUID CONCENTRATED FEED SUPPLEMENT**

**Vitamins & Aminoacid**

## Composition / 1 liter

Vitamin A	20.000.000 UI
Vitamin D3	2.000.000 UI
Vitamin E	2.000 mg
Vitamin B1	1.000 mg
Vitamin B2	4 mg
Vitamin B6	520 mg
Vitamin B12	5 mcg
Biotin	15 mg
Vitamin C	5.000 mg
Vitamin K3	1.000 mg
Calcium pantothenate	1.000 mg
Nicotinic acid	800 mg
Choline chloride	350 mg
Methionine	2.500 mg
Lysine	2.500 mg
Threonine	150 mg
Tryptophan	100 mg
Valine	100 mg
Distillate water up to	1.000 ml

## Instructions for use :

Instructions for use: 1-5 gr ml per kg of complementary composer bee feed (sugar-water, syrup, sugar dough, vanilla, pollen pie), depending on the increased needs of the bee hive.

## Indications :

Enhanced nutritional supplement of amino acids for all bee feeds (sugar-water, syrup, sugar dough, vanilla) especially in pollen pies. **Bee Vit Amino Extra** contains the entire range of vitamins needed in an appropriate proportion so as to contribute to:

1. The proper stimulation and growth of the hive.
2. The smooth running of the bee hive and the right behavior (not apparent looting).
3. Reduce the stress caused by bee-keeping handles (moving the hives) and contradictory weather circumstances.
4. Enhance the immune system of the bees against different diseases (parasitic, microbial, viral), by protecting bees from diseases and health problems.
5. Maintain physical health of the bees inside the hive during winter, by minimize the losses during this season.
6. To rapid growth of bees during spring.
7. To maintain the health of the generators throughout the year
8. To the significant increase to the fertility of bees.
9. To the correct rapid development of the offspring.
10. To increase the produced products of the hives (honey, candle, royal jelly).
11. Activates bees to consume the bee feed.
12. Activates the repletion mechanism of the bees, to consume the necessary quantity of bee feed.
13. Reduces the aggressiveness of the bees.

Suitable for all stages and seasons, when bee lacks of nutritional elements received by natural nutrition. Vitamins are specially protected (capsulated) so that to resist in high boil temperatures of the bee feeds.

Does not leave any residue in the produced honey.
