#### Indications

*Biotin 6000* is a concentrated nutritional supplement containing biotin, vitamins and amino acids for the complete protection of the hoof of the skin and the hair and for its rapid development and regeneration. Its ingredients are necessarily nutritional components of the structure of their keratin layer, thus helping the horse develops stronger hoof walls and improve the quality of the coat by giving it the thickness and luster needed. It is recommended to give it especially during the Spring or Autumn where we have a change of coat. It also works therapeutically in cracks -hoof hooves and dermatoses. The use of biotin reduces the length of time required for complete hoof regeneration.
