#### Indications

The product *Liver Tonic* is a feed supplement specially designed to enhance the health and good function of the liver. Liver is an organ of vital importance to the horse, as the blood is filtered out and the toxins removed.

It contributes in particular in:

- In the rapid regeneration of the tissues and the cells of the liver for its proper functioning.
- In the conversion of glucose to glycogen.
- In the conversion of lactic acid to glucose.
- In the increase of fat absorption.
- To the best metabolism of proteins (composition and degradation).
- To the rest of the horse after the racing and coaching.
- To increase resilience for speed and distance races.
- In the protection of liver from toxic substances.
- Dealing with stressful situations.
- The degradation of the majority of pharmaceutical products.

#### Package

Bottle of 1 liter
