Training	10ml	12ml
Race	15ml	18ml
Recovery (15 days)	12ml	15ml

Composition per liter

Vitamin E	30.000 mg
Selenium	60 mg
Zinc Sulphate	1.000 mg
Propylene Glycol	50.000 mg
Distillate water up to	1.000 ml

Indications

The vitamin E and Selenium supplement contributes to maintaining the good health of the horse. The lack of these two elements has adverse effects on the health of the muscular and nervous system as well as the reproductive system. They act as antioxidants, enhancing the defense of cells, especially those of the heart and the muscles and the brain, working at high levels of oxygen with intense burns. They also protect red blood cells from disaster during exercise and help detoxify the organism.

Package

Bottle of 1 liter
